## The clock is ticking!

Lives are at stake, you need to take fast decisions to balance the safety of all the districts under your care! To terminate the virus, transfer the Critical Resources (CR) including doctors, medicine and other resources for fighting pandemic, between different areas to save them. Different CR has different effects in each area, your goal is to find the most effectively way of CR's distribution, in order to maintain your Control Points (CP) above 0, which indicates the situation of your administration and the pandemic. When all CP can be maintained above 0 for 5 minutes, you will terminate the pandemic! While any of your CP hitting 0, the pandemic beats you! Good luck!

## Brief Game Instructions

- **Local CP**
- Health Threat Drop: People infected in an area – rise after good decisions
- **Global CP**
- Citizen Trust: The faith citizens have on player – rise after good decisions
- External Safety: Safety of the areas you govern – drop after bad decisions
- Disposable Money: Financial support for fighting virus – drop after bad decisions

The current pandemic inspired this game.  
Become a protagonist and a savior!
