Los Santos Daily

Breaking! Horrible pandemic sweeping in! Four districts in a coastal metropolis LosSantos stricken by a horrible pandemic VOPID-141 is in utter chaos. Citizen's lives GassVille, San Andreas, Vice City, Liberty City! get us through this disaster! and the urban resources are at stake in Out of humanistic concern, the only way to get through this is to rationally redistribute the critical resources in four districts.

Weather Broadcast: Today: rain showers 21° C-27° C Tomorrow: sunny 23° C~28° C State governor impeached

The governor of Los Santos has just been impeached for his long period of ingovernment and suspected bribery. We are in desperate need of a wise leader to

Out of humanistic trans-regional assistance, the players, more often than not, are pressed to make moral decisions balncing the safety of districts by tranfering the CR (Critical Resources) lightning fast. Maintaining the regional CPs (Control Points) above 0 in certain durations leads to victory. Alternatively, any CPs hitting 0 would instantly indicate failure.

Terminator recreates for the players the scenario where countless medical workers, policy makers and all the other concerned parties had to make tough decisions facing extremelystressful situations just to save our lives and protect our countries as best as they can during the real pandemic COVID-19 last year. May their great spirit inspire us.

Brief Instructions On The Game

- Health Threat Drop: The disalarmed Health threat level
- Citizen Trust: The faith citizens in an area have in its governor
- External Safety: The safety guaranteed of the personnel and material inflow
- Disposable Money: The maximum financial aid offered to concerned institute

Save the world! Terminator! Gotham is located in the downtown area of the city, just like the capital of a country, highly developed and helpful. Bombay is Gotham's "Satellite district", geographically and interactively, thus the CR exchanging between those two district is particularly efficient! GassVille is located in the most developed Southeast coastal area, boasting highest initial CP but has underwent a long period of misgovernment and its improper import&Export policies. Finally, Burnley is in the most deserted and least developed Northwest corner in contrast to the diligence of its citizens hence the premium exports. Remember: transferred CR both increase and DECREASE the CP in each area at a certain high or low ratio. The occurrence conditions of this risk is left to you to discover, and whether to play it safe to take the risk, it's all up to you! Try to survive as long as possible, baby let the game begin!
